Date of birth 27/03/1992 | Nationality Romanian

ENGINEER

Research and Development Station for Plant Culture on Sands Dăbuleni – Experimental Base no. 1 Horti-Viniculture

WORK EXPERIENCE

April 2018 – Present

Administrator

SC SoriCris Agricol SRL

Developing and managing of the annual agricultural work plan, adapted to the season and type of crop. Organising crop rotation, applying phytosanitary treatments and scheduling harvesting. Preparing the budget for farming activities and monitoring of expenses. Preparing financial reports and managing the necessary documentation for APIA. Negotiating and purchasing agricultural inputs (seeds, pesticides herbicides, etc.). Maintaining relationships with suppliers and distributors. Supervising the process of capitalising on agrarian production.

March 2012 – Present

Farmer

Performing soil preparation and sowing work for various crops. Applying fertilisers and phytosanitary treatments according to the needs of each crop. Monitoring crop development and early identification of diseases or pests. Harvesting and storing agricultural production in optimal conditions for sale. Maintaining and using agricultural equipment (tractors, seeders, specialised machinery). Complying with safety regulations. Involvement in the process of direct sales or delivery of products to customers and partners.

June 2019 – July 2019

Horticultural Engineer

Iancu Farm Dăbuleni

I assisted with the maintenance and cultivation of horticultural plants. I participated in monitoring the phytosanitary status of crops and applying treatments. I learned how to use specific horticultural equipment. I collaborated with the team on various specific activities.
